Members' Newsletter September 2006 – Number 18 3rd NZ Metals Industries Conference 2006

Steel Construction Day, Friday 3rd November Kingsgate Hotel, Hamilton

You are invited to attend a day of learning and knowledge sharing on the fastest developing construction sector in New Zealand. This is a must see for all those involved in steel construction. Our focus at this conference is on the theme of preparing for the future. So our guest speakers will be speaking on issues of steel construction supervisor licencing and training; business succession planning; developing leaders from your people; green structural steelwork; and a global steel update. The sessions will finish with a members forum to discuss any matters of business at hand and be followed by the conference gala dinner at the Hamilton Gardens Pavilion. See you there.

To register go to www.hera.org.nz/conference/index.htm

Successful Steel in Architecture Nationwide Series

Over 440 architects and engineers enjoyed the SCNZ sponsored talks by Melbourne Nonda Katsilidis in Auckland, Wellington and Christchurch recently. Nonda is responsible for the Eureka Tower in Melbourne the tallest building in the Southern Hemisphere as well as the Rupert Murdoch News Corp offices: built in steel in Adelaide.
